

Compact Environments

- compactitem saves some space
- and lets you specify the symbol.
 - (i) compactenum saves some space
 - (ii) and lets you specify the symbol.

Some Enumerations

- (i) first item
- (ii) second item
- (iii) third item

Beispiel a) first item

Beispiel b) second item

Beispiel c) third item

A-1 first item

A-2 second item

A-3 third item

Item I first item

Item II second item

Item III third item

1. asparaenum produces enumerations in which the items are formatted as separate paragraphs.

2. second item

By saying 2 we get 2.

(a) The inparaenum environment formats an enumerated list inparaenum within a paragraph (b) takes care of enumeration and (c) has items that can be referenced.

By saying c we get c.

Some Itemize

- asparaitem is the same but does not enumerate
- second item

By saying we get 2.

- inparaitem is another – itemize which formats – items in a paragraph
